Safety Comes First: A 2018 Recap

Increased employee engagement, a robust training program and refocusing on leading indicators has yielded impressive safety results for Veolia's Environmental Solutions &

Services (ESS) business.

- **Experience Modification Rate** - Used by the insurance industry to gauge risk, EMR has a strong business impact. Due to our robust safety culture and focus on training, we're 49% lower than the industry benchmark (1.0), with an EMR of 0.51.
- **Lost Time Injury Rate** - With a rate of 0.15, we're 93% lower than the industry average of 2.2 (lost time injuries occurring in a workplace per 1 million hours worked) for the 2017 Bureau of Labor Statistics (BLS) for NAICS code 5621. With a strict 'stop work' mentality, daily safety briefings and a 'goal zero' mindset, employees are empowered to always prioritize safety.
- **Total Case Incident Rate/ OSHA Recordable Incident Rate** - With a rate of 1.41, (the number of work-related injuries per 100 full-time workers annually), we're 72% below the industry average for the 2017 BLS for NAICS code 5621, highlighting our team's stellar commitment to safety.

Learn About Our Safety Culture

Leading Indicator Web App: Safety Begins With Every Employee

Veolia recently launched an innovative website application to manage and track all safety incidents and leading indicators using Intelex's software. The self-reporting application allows employees to be more focused on safety on a daily basis and streamlines reporting with only one system used to manage and track all incidents.

Veolia's Bob Cappadona Shares Tips for an Effective Corporate Recycling Strategy

"The importance of recycling reaches beyond the curbside recycling bin," says Veolia North America COO Bob Cappadona. "Recycling extends to waste streams generated by corporate offices, industry, large-scale commercial operations, governmental agencies, and small businesses."

Winter Weather Safety Tips

- If you plan to use a fireplace or wood stove for emergency heating, have your chimney or flue inspected each year.
- Keep pets indoors. If you cannot bring them inside, provide adequate shelter to keep them warm and make sure that they have access to unfrozen water.
